ABSTRACT

According to one aspect of the present invention, there is provided a document browsing system for storing, in response to a user request, bookmark information relating to a document presentable to a user through an interpreter, the document comprising mark-up language and being providable to the interpreter by a document server, the system comprising a document processor for inserting in the document prior to the document being presented to the user additional mark-up language for enabling the user request to be made through the interpreter, and a data store for storing the bookmark information in response to the user request.
